Tender for Restoration Works at San Anton Presidential Palace, Attard incuding the garden boundary walls on Lord Strickland Street and part of St Anthony Street	Camray Co Ltd	Restoration Directorate	€80,981.70	€120,762.60	49.12%	Towards the end of last year, a section of the San Anton Gardens boundary wall collapsed inwards, leaving the external skin in a precarious state. In fact, this had been certified to be in a dangerous state, and the street orderred to remain closed. We had immediately taken measures to start the repair works as soon as possible. This was facilitated by the fact that we had an awarded contract for works for the restoration of another section of the boundary wall. These works were being carried out by Camray Ltd (contract ref:

						REST/1/2014, issued by the Restoration Directorate obo the OPR). The repairs works on the wall were measured using contract rates, since the necessary items of work are already incorporated in the active contract. PS (MJCL) approval for the variations/extra works, as is required by the public procurement regulations was sought and granted

Tender for the Electrical Works to Outbuildings at Villa Francia, Lija using Environmentally Friendly materials - VFC 04B	Raymond Vella & Co Ltd	Restoration Directorate	€45,022.20	€48,049.22	6.72%	During the course of works it transpired that eight of the existing twin socket outlets, originally projected to be retained, had corroded as shown on the photographs attached and had to be replaced. Also, during the course of works it transpired that the conduit linking the visitors' area with the main IT cabinet in the main Villa which was already in place, had become partly clogged with the consequence that not all the cables resulting from the new installation could be conveyed to the main cabinet in the Villa. To this effect, given that the unblocking of this duct would have proved costly since it would have entailed the breaking of the existing paving in the Villa and its subsequent reinstatement, two new switches and 4 new module transceivers costing €2,150.36 were installed in the visitors' area to reduce the number of cables that needed to be connected to the main switch in the Villa. This additional cost is significantly less than that which would have been incurred had the paving been taken up to unblock the duct.
Provision of Environmentally Friendly Cleaning Services at the Restoration Directorate, Ospizio Offices, the Fortifications Interpretation Centre and Other Satellite Offices	JF Services Ltd	Restoration Directorate	€29,733.00	€62,966.20	111.77%	Services were extended by one year as catered for in the tender document. Payable rate per hour reflects the approved rate for the year 2016.
