Goods/Services:
Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments and their components; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity and their components; apparatus for recording, transmission or reproduction of sound or images and their components; data processing equipment and computers and their components; optical glasses, blanks and processed components for optical devices and consumer optics; optical filters for lighting technics, optical devices and telecommunications, mirrors holders made of glass ceramics for astronomical telescopes; laser glasses and their components, not for medical use; core glasses for light guiding fibers and fused together fiber optics; spectacle lenses (pressed) for ophthalmic purposes and sunprotection; reflectors and optical components for digital projection; radiation shielding glasses; screens and funnels and glass solder for the production of cathode ray tubes for TVs and computer monitors; front panels for TV screens and other screens; photovoltaic installations and devices for the transformation of solar energy into electricity and their parts and fittings, photovoltaic elements, namely modules, batteries and converters; photovoltaic monitoring systems; solar collectors for current production and their components included in this class; fiber optic components and systems for light transmission in industrial, medical and signalling technics; fiber optic components for industrial image processing and industrial lighting; fiber optic light guides for endoscopy, surgical microscopy and dentistry; fiber optic light guides for traffic managament, railway signalling, airport signposting, city lighting and illumination and advertising displays; fiber optic components and lighting elements for changeable traffic signs and parking guiding systems; glass-to-metal feed-throughs for optoelectronics, frequency control, data transmission and telecommunications as well as for automotive control electronics/sensors; opto electronic components, namely optical lenses, windows, filters as well as quartz resonators and oscillators for telecommunications, opto electronics, data processing, semi-conductor industries, laser applications and sensors; glass-to-metal casings, opto-hybrid casings, transistor casings (Tos), quartz casings, all for the aforesaid goods for use for telecommunication, opto electronic, data processing, semi-conductor industries as well as for laser applications and sensors; optoelectronic compression-glass cable feed-throughs for pressure tanks in chemical plant construction; fiber optic connecting devices for parallel optic data processing as components in telecommunication systems like in optical switches and routers, as well as for data communication in high performances servers and parallel processors; optical components and optical interfaces for fiber optic transceivers, optical MEMS switches; fiber optic light guides for the semiconductor industry and ultraviolet lighting with high intensity; laboratory apparatus and instruments, laboratory glassware; titration apparatus, viscometers and viscosity measuring apparatus; piston burettes, electrodes for pH, redox, O2 and conductivity measurement, namely pH meters, O2 meters, conductivity meters, thermostats, distillation appratus, immersion type and flow type probes; apparatus and instruments for measurement control engineering; biosensors for biotechnics, gene technology and DNA-analysis; glasses for microbiology; components made principally of special glass for process engineering plants for distillation, rectification, extraction, absorption and reaction, namely tubing, waste gas and drain channels and vessels; flash lamps, X-ray tubes and image amplifier tubes; electric and electronic switches and sensors; touch sensors; electronic components; lightwave guides and their parts, namely distribution boxes, included in this class; slab-wave guides, Y-branches, star couplers, multiplexer and demultiplexer, interferometers and ring resonators; electric, electronic, optical, fiber optic and optoelectronic apparatus and instruments and systems made therefrom for data transmission in computers, in computer networks and for telecommunications, included in this class; fiber optic apparatus and their components for medical engineering, measurement and control engineering; special glass fibers, light guiding rods and cones, flexible image guides, flexibles light guides, laser beam guiding and systems made therefrom; optical glasses, radiaton filters, interference filters, optical filters; special glasses, crystals and glass ceramics components parts for optical components; optical components for micro lithography; mask blanks for micro lithography for the production of computer chips; highly homogeneous optical glasses; synthetic quartz glass and optical crystals for micro lithography optics; lenses, prisms, mirrors for optical apparatus and instruments, for ophthalmic purposes, for spectacle glasses, for objectives in cameras, binoculars, telescopes and for optical devices; laser glass for optoelectronics, Cerenkov glasses, scintillation glasses, radiation shielding glasses; optical core glasses for light guides and together fused fiber opticals; optical phosphate and silicate glasses for the amplification of energy in high energy lasers, filters for diagnostics and beam control; projection apparatus and indicators (electricity) and systems therefrom and their components; diodes (so called OLEDs) and flexible light diodes; fiber optic components for data transmission in vehicles of all kind and in other means of transport.
