No. 554

MALTA COMPETITION AND CONSUMER AFFAIRS AUTHORITY

Explanatory Notes

1. Introduction

Title of Regulations	Fluorinated Greenhouse Gases (Implementing) Regulations, 2025 (hereinafter referred to as the "implementing regulations").
Activity to be regulated	Regulation (EU) 2024/573 of the European Parliament and of the Council of 7 February 2024 on fluorinated greenhouse gases, amending Directive (EU) 2019/1937 and repealing Regulation (EU) No 517/2014 (hereinafter referred to as "Regulation (EU) 2024/573") establishes rules on containment, use, recovery, recycling, reclamation and destruction of fluorinated greenhouse gases as well as certification and training for the safe handling of fluorinated greenhouse gases..
Responsible entity	The Technical Regulations Division (TRD) within the Malta Competition and Consumer Affairs Authority (MCCAA).

2. Summary and Background

2.1 Aims & Objectives of the legislation

The scope of these regulations is to implement Regulation (EU) 2024/573.

Regulation (EU) 2024/573 provides for rules on containment, use, recovery, recycling, reclamation, and destruction of fluorinated greenhouse gases as well as certification and training for the safe handling of fluorinated greenhouse gases.

Regulation (EU) 2024/573 also imposes conditions on the production, import, export, placing on the market, subsequent supply, and use of fluorinated greenhouse gases and of specific products and equipment containing fluorinated greenhouse gases or whose functioning relies upon those gases. Moreover, this Regulation imposes conditions on specific uses of fluorinated greenhouse gases and establishes quantitative limits for the placing on the market of hydrofluorocarbons.

Today, fluorinated greenhouse gas emissions amount to 2.5 % of total greenhouse gas emissions in the EU and have doubled from the year 1990 till the year 2014 as opposed to other greenhouse gas emissions, which have been reduced.

Regulation (EU) 2024/573 introduces stricter controls and bans on F-gas compared to the preceding Regulation (EU) 517/2014 of the European Parliament and of the Council of 16 April 2014 on fluorinated greenhouse gases and repealing Regulation (EC) No 842/2006, while establishing a framework to completely eliminate the consumption of hydrofluorocarbons (HFCs) in the EU by the year 2050. This will be achieved through a series of phase out dates for the use of F-gases in products and equipment.

Phasing out harmful F-gases is intended to lead to an uptake of alternatives, more environmentally friendly gases in products and equipment, which is necessary for the EU achieving its potential climate goals. Moreover, Regulation (EU) 2024/573 implements further bans on placing specified products and equipment containing HFCs on the market for several categories, where it is technologically and economically feasible to switch to F-gas alternatives.

Therefore, in view of the above requirements, Fluorinated Greenhouse Gases (Implementing) Regulations (S.L. 427.94) needs to be repealed and substituted by the new implementing regulations as means of implementing Regulation (EU) 2024/573 into national legislation.
