MARSASKALA PC 0016/24

Proposed shifting of building area away from the Areas of Ecological Importance and Sites of Scientific Importance (Salt Pans).
The proposal consists of exchanging part of the existing green area (private garden) with a proportional amount of the building area, such that the location of the proposed green area acts as a transition/buffer zone between the salt pans and the proposed building area.
The proposal also includes the conversion of the permissible development from 'bungalow area' to 'semi-detached bungalow area' with a minimum site area of 500sq.m and a maximum site coverage of 40% for each s/d dwelling - similar to existing commitments in adjacent sites.
